## Cautions following Vaccinations

予防接種後の注意

- ① For 30 minutes after inoculations, you should observe your condition at the medical institution, or make sure to be able to get in touch with the doctor. There might be sudden side reactions during this time.
- ② After inoculations, be aware of side reactions. Watch for 24 hours.
- ③ Inoculation sites should be kept clean. Bathing on the inoculation day is fine, but you should not rub the inoculation site.
- ④ Avoid any heavy physical exercises on the inoculation day.
- ⑤ After the inoculation, consult the doctor immediately if any extreme side reactions happen.
